Multizona

CONTROLADOR WIFI CON APLICACIÓN IOS y ANDROID

WIFI CONTROLLER FOR IOS AND ANDROID

Sistema de control WIFI compuesto de emisor RF y receptor con sistema WIFI. Emisión a 2,4GHz para evitar interferencias. Receptor RF y WIFI para ser controlado por mando RF y por Smartphone o tablet. Posibilidad de controlar hasta 12 zonas independientemente. Estas zonas pueden ser monocolor, RGB, RGBW o sistemas de iluminación con cambio de temperatura de color.

WIFI system is composed by RF transmitter with WIFI system receiver. Issued to 2,4GHz to avoid interferences. RF receiver and WIFI to be controlled by RF control and Smartphone or tablet. They have the possibility to control 12 independent zones. They can be single-color, RGB, RGBW or lighting systems with color temperature change.

	ALIMENTACIÓN POWER SUPPLY	ZONAS ZONES	CARGA MÁX. MAX.CHARGE	MEDIDAS MEASURE	COMENTARIO REMARKS
BS-WIFI-104	12-24VDC	12	4A x 4 canales / channels	1145x55x22	Incluye mando emisor RF / RF control includes
BS-R45A	5-24VDC	-	5A x 4 canales / channels	175x44x30	Receptor RF tensión constante para BS-WIFI / Constant voltage RF receiver to BS-WIFI
BS-R4CC	12-48VDC	-	350/700/1050mA x 4 canales / channels	175x44x30	Receptor RF corriente constante para BS-WIFI / Constant current RF receiver to BS-WIFI
